VARCOS
A Passage to Success

Our Students Speak up their minds..

Shivani -
attended sessions on 'Functional Testing - Test Case writing' and member of 'Varcos Study Circle'

"The sessions we had for testcases writing were the best. VJ sir taught me how to write the test cases effectively, which can be easily understood by anyone.

Various topics explained in Varcos Study circle helped me a lot to clear the concepts.

My experience is very good with Varcos. Everyday sessions helps to learn new things. Java and Selenium assignments are really helpful to get more confidence in coding as well as writing selenium scripts.

VJ sir's teaching style is very good. All the concepts are explained with examples, which helps to understand the concepts.

Overall , Sessions are absolutely effective."
