

VARCOS

A Passage to Success

Our Students Speak up their minds..

Mubin Dalal,
ISTQB Foundation prep
course, Sep 2020
batch

“Thanks to VJ sir, for the training and support throughout the ISTQB Foundation journey. Overall the training was really helpful for clearing the exam.

After this course, my overall approach of looking at testing is improved. I understood the actual importance and key factors which influence testing.

Course gave enough confidence, discussion while solving sample question papers and elaborating those concepts helped to have more clarity on those points.

The key points were explained through slides which were easy to relate with ISTQB syllabus.

Assignments such as equivalence partitioning, boundary value analysis, decision table testing etc improved the understanding of those concepts.

I would definitely recommend this training program to others as it improves the understanding of key testing concepts and surely helps to crack ISTQB exam.”

- Mubin Dalal, Automation Test Engineer @ IVAVSYS
